

Jessy Wang

Aspiring Research Scientist in Mathematics, AI & Neuroscience

EDUCATION

2022--2026 **Laurel Springs School**

GPA: 4.0

ACT: 35 / 36-- Math: 36, English: 35, Reading: 35

RESEARCH EXPERIENCE

2025 - Now **Research Assistant | UPMC**

- Assist with research on implementing quantum tractography in neurosurgery.
- Explore applications of neural networks for personalized treatment planning.
- Study connections between computational modeling, medical imaging, and patient-specific medical decision-making.
- Develop interdisciplinary familiarity across neuroscience, machine learning, neurosurgery, and medical technology.

HONORS & AWARDS

- F=ma Perfect Score rank 1/6,682
- USAMO Qualifier (26')
- USAPhO Qualifier Distinction for Commendable Performance 2026 (25'-26')
- USACO Gold Division (25-26')
- USNCO National Qualifier (26') @CMU site
- Citadel Pathways Program 2026, Invitational Participant
 - All-expenses paid, invitation-only program for top US high school seniors and juniors recognized for excellence in Math, Physics, and Computing Olympiads. Learned about quantitative trading, research, and technology through interactive simulations and mentorship from industry leaders.
 - 1 of 26 out of ~ a pool of ~15,000
- Utica University AMC Scholarship
 - Placed 1st out of 100+ students.
 - One of 2 students out of 100+ to qualify for AIME.
 - Earned DHR on the AMC 12.
 - Awarded Professor Wayne Newman Palmer Scholarship (\$5000) for two credited classes at Utica University.
 - Invited to deliver a speech at the awards ceremony; ceremony was later canceled due to weather conditions.

SKILLS

- Machine Learning, Programming & Web Development: HTML, CSS, Java, Python, C++
- STEM: Mathematics, Computer Science, Physics, Chemistry, Medicine
- Research Interests: medical imaging, machine learning, quantum mechanics/computing, tractography
- Strengths: Analytical problem-solving, discipline, teamwork, independent learning
